Prakan Photography provides an album, which covers not just candid

wedding photography but also your emotions amidst everything that spells nature and looks at the

diverse pictures. Weddings are a classic treasure trove moment in our lives, we tend to ooh, ah, and

gasp and that's what makes weddings all the more enjoyable.

We are present to capture the beautiful moments in the form of

candid wedding photography where two families unite together to form one big family. Amidst all

that, we have those special moments where the bride blushes or the groom holds his woman's hand and

that touch leads to a reaction from the bride. All these moments whether it be the bride and the

groom who are the center of attention or the gang of oldies who crack jokes and laugh out loudly

have to be caught on the reel candidly so that we can relive the moment from anywhere and at any

time in the future.

The beauty of candid wedding photography is that we have so many

options nowadays where all the must-do events are beautifully captured by our team of expert wedding

photographers where their talented young minds run around trying to capture the natural beauty of a

person without asking them to pose. That is something to relish without additives.

Our candid wedding photography also includes outdoor photography

where our lensmen aren't afraid of the scorching sun or the patter of the raindrops all they want is

for the couple and the family to look amazing, whether it is the sandy beaches or in the middle of

nowhere or amidst a bustling market, we are here for you, to give you that 'oh so perfect picture'

that you always dreamt of. Our team consists of wedding photographers and cinematographers with a

unique sense of style and fast access to state-of-the-art technology for capturing pictures that you

can cherish forever.

Photography provides an album, which covers not just
candid
                    wedding photography but also your emotions
amidst everything that spells nature and looks at the
                    diverse pictures. Weddings are a classic
treasure trove moment in our lives, we tend to ooh, ah,
and
                    gasp and that's what makes weddings all the
more enjoyable.</p>
                <p class="kids-page-paragraph">We are
present to capture the beautiful moments in the form of
                    candid wedding photography where two
families unite together to form one big family. Amidst all

that, we have those special moments where the bride blushes or the groom holds his woman's hand and

that touch leads to a reaction from the bride. All these moments whether it be the bride and the

groom who are the center of attention or the gang of oldies who crack jokes and laugh out loudly

have to be caught on the reel candidly so that we can relive the moment from anywhere and at any

time in the future.

The beauty of candid wedding photography is that we have so many

options nowadays where all the must-do events are beautifully captured by our team of expert wedding

photographers where their talented young minds run around trying to capture the natural beauty of a

person without asking them to pose. That is something to relish without additives.

Our candid wedding photography also includes outdoor photography

where our lensmen aren't afraid of the scorching sun or the patter of the raindrops all they want is

for the couple and the family to look amazing, whether it is the sandy beaches or in the middle of

nowhere or amidst a bustling market, we are here for you, to give you that 'oh so perfect picture'

                that you always dreamt of. Our team consists
of wedding photographers and cinematographers with a
                unique sense of style and fast access to state-
of-the-art technology for capturing pictures that you
                can cherish forever.</p>
